

MEDIA COMMENTATOR

PAUL TALIANGIS, CEO, CORE ENERGY GROUP

Paul Taliangis, Chief Executive of leading Australian energy advisory firm Core Energy Group, is available to provide fearless, analytical comment on all matters affecting the country's energy industry.

With more than 35 years of international business experience, the vast majority in the Australian energy industry, Paul is a passionate energy strategist, transaction adviser and energy system developer.

Paul has access to a network of high-profile professionals in the energy space and speaks with conviction on hard issues across the entire value chain including:

- **Energy policy** – International, State and Commonwealth, Carbon, Climate Change
- **Energy trends** – consumption and demand, supply alternatives, international cost competitiveness, wholesale and retail cost and price outlooks, technology, economic growth and energy requirement
- **Electricity** – reliability, cost/price, emission intensity, coal, gas, wind, hydro, solar, nuclear
- **LNG** – East Australia/Gas supply challenge, international competitiveness, price outlook
- **Gas** – demand/consumption, supply, cost, price
- **Oil and Gas Liquids** – refining, import reliance, price outlook
- **Transport** – fuel substitutes, emissions, new technologies (battery, fuel cell)

In his role as Chief Executive of Core Energy Group, Paul has worked with esteemed clients including Santos, GLNG, APLNG, QCLNG, BHP Billiton, Exxon/Esso, NWS, Alinta, ATCO, Epic Energy, Shell/Arrow Energy, Origin, AGL, Energy Australia, AGN, Jemena, Commonwealth and State Governments and major Japanese, Chinese, Canadian, and European investors.

He is a regular Adviser to Governments, Energy Companies and Investment organisations, most recently advising on a range of divestitures by Origin Energy, the \$1.8B Iona storage sale by Energy Australia to QIC/Lochard, and evaluation of the multibillion sale of Alinta.
